PROFILE

Full Stack Engineer

My name is Tanaka Nori and I am a Full-Stack engineer specializing in Node/React, Web3, Smart Contract and video streaming and AWS serverless.

My experience spans over 8+ years and I have worked on designing, developing, deploying and maintaining websites and web applications.

I have deep knowledge of Node, PHP, c#, Python, React, Vue, Angular which are my main languages for developing.

About me:

- * bachelor degree in Computer Science.
- * Flexible working time
- * Fluent in English

Experience:

- * DeFi application with Web3, Smart Contract, Solidity.
- * Video Streaming technologies : WebRTC | IpTV | FFmpeg | HLS | Wowza | Kurento | TokBox | RTMP | Jitsi | Janus.
- * E-Learning Systems.
- * Dating Application.
- * Content Management websites.
- * ERP websites.
- * Online Stores & eCommerce Solutions.

I am an optimistic and hard working full stack developer, who loves clean and maintainable code.

I will go out of my way to deliver the best quality!

Thank you for reading my profile with kind attention!
