## Skills

From making simple web apps to make web apps with high complexity and robust user interfaces, I can do it all. I have deep hands-on experience in the following:

- Javascript

- React

- MySql

- PHP

- Restful API's using node and MySQL

- Expertise in front end development

-Bootstrap

-CSS

-Responsive Web-design

- Project Evaluation and System Analysis

These are, to name a few, as learning new things is something I enjoy and always do.

—

## Experience

### Indian Printers/ Web Developer
March 2020- December 2020, Chandigarh

Made a 3-D box rendering web application to help them take their business online.
