Top Skills

Ruby on Rails

Elixir

React.js

Antonio Davis

JavaScript / Ruby on Rails developer

Wanze, Walloon Region, Belgium

Summary

I am a seasoned engineering manager and full-stack developer with
6+ years of experience in software engineering primarily working on
RoR, and JavaScript frameworks.
I have solid expertise in building web applications, data pipelines,
advanced reporting and analytics systems, and data science
functions for different domains like payments, fintech, telecom, and
utilities.
I also have relevant management skills, having built and managed a
small team with 3 - 5 members.
